

CHARME FURNITURE

We are engineers and architects who first entered this sector by producing furniture to meet the needs of our own projects in different countries in construction and decoration. In the light of the experiences we have gained over the years, the high appreciation of our work has encouraged us to increase our production capacity and become a supplier in this field. Our biggest advantage is that we have done and do business in many countries and that we have a multinational structure. Our motto has been to respond to demand from anywhere in the world in the fastest way, produce high quality products at reasonable prices, and provide a perfect delivery process. We would be happy to see you in our wide business network using our excellent quality service products.

A sofa that allows maximum comfort in whichever position. The key element is the “Smart Cushion”. Backrests and armrests have lost any stiffness and can be molded as desired with a flick of your hand: low, high, oblique, enveloping and functional. The deeper seats help to discover a casual comfort. Standard is the result of years of technological research to produce an exclusive sofa that perfectly fulfils the wishes of the users.

It allows total freedom of combining seats of different shape and depth to customize the compositions : linear, angular or free plan.

Elegance and comfort meet with perfect color selection and impeccable workmanship.

It is possible to produce an armchair in countless ways. But producing with layered leather details gives the highest level perfect result.

There is no higher level covering material than natural leather. A Chester style sofa is the most elegant possible form of this leather, a gift from nature.

TBL 01

TBL 02

Wooden ,glass or ceramic top on bent metal legs. The appeal of modern and simple lines.

TBL 03

CH 01

The Couture leather chair is further embellished by a tailoring on the back of the backrest: a beautiful diamond-quilting that not only enriches the collection, but also ensure this version to be versatile, suitable for a design living room of both residential projects and workspace design projects.

The structure made of high-quality solid wood and the refined range of finishes create multiple style combinations that are available both in the standard version and in the chair with armrest.

CH 02

CH 01

A design with sinuous lines that envelop the body, support posture and help make modern dining rooms cosy environments you can feel at home in. There are leather and fabric options for covering.

Conical bottom part in curvilinear form,
ceramic, marble or wooden top;
Multiple options, unlimited beauties.

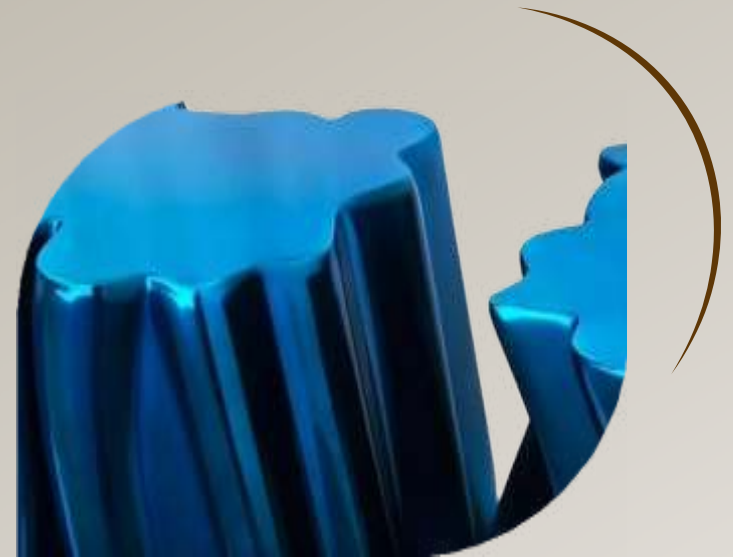

Natural wood coverings are the most prestigious shape of a wall . We can also make this elegant finishing with painted MDF as well

Luxurious, attractive and impressive...

This stylish console and set is a candidate to be the most special pieces in your home with its individual geometric form, special paint and extraordinary mirror on top.

CON 01

CON 02

CON 03

This stylish console and set is a candidate to be the most special pieces in your home with its individual geometric form, special paint and extraordinary mirror on top.

The warmth and charm of natural wood combined with the perfection of glass.

CON 05

The consoles made with this extraordinary finish are the ultimate in hand craftsmanship. This model, complete with handle and wood legs, can be used in many different styles of decoration.

This iconic bed model is for those who see elegance as a priority in every area. The hand-made details on its harmonious curves are flawless.

*NT 01**BED 01*

BED 02

It is both comfortable, sporty and very stylish. A great combination with special stitching and fillings.

This special walk-in closet reinterprets the wardrobe system in a light and elegant way without sacrificing the sturdiness assured by the thicker side panels. Without doors, the storage volumes are open and offer maximum freedom of configuration.

Finishes are the protagonists, as are the fixtures, which can be selected according to personal requirements by combining clothes hanger rods, drawer units, shelves and pull-out trays. The walk-in closet can be completed with the special island drawer unit, a perfect aesthetic match.

Metal-framed glass doors and sensor LED lighting system that can be added take the dressing room to a whole new level with small details.

KTC 01

The kitchen with the addition of the special **New Logica** feature in glossy Cold Grey **glass**, offers an extra level of sophistication and **functionality**.

This **special element** not only maintains aesthetic continuity with the glass walls and sliding panels, reflecting the beauty of the city and the sky's reflections, but also adds a touch of **innovation** and practicality to the overall design.

A large and functional space contains all the tools required for impeccable wine service. In addition to a shelf in stainless steel - a material that stands out for its resistance, hygiene and easy-to-clean properties - the inside of the cabinet is provided with a stemware rack and a wine rack as well as a space to install a wine cooler.

KTC 02

The kitchen model, produced with special gold paint and hidden handle detail, combines functionality and elegance.
